WHITE AUXILIARY LIGHT

Installation: To plug the primary light color, use a standard 3 prong pigtail.
An extra male bullet plug is provided for the secondary light color
(White Back-up light).

The Dual lights are designed to have the white reverse function override the red stop, turn & tail function when in reverse; therefore it is recommended to have two standard Red Stop, Turn & Tail function Lights installed on the rear of the truck.
Please see below for Trux's equivalent standard models of the Dual collection.
